

# Croptivity®

MANAGEMENT MADE EASY

**Croptivity®** delivers an accurate picture of your farm at all times so that you'll always have what you need to make informed decisions and get work done, no matter where you are. Record and schedule tasks for your team — whether you're at home, at the game or away on vacation.

WORK OFFLINE WHEN NOT CONNECTED TO THE INTERNET

## SAVE TIME

Manage your farm information with less data entry and implement more efficient workflows across your operation.

- Record important field level information including georeferenced photos, pest characteristics and crop input information
- Auto-capture records including field weather and growth stage at the time of application

## COMMUNICATE EFFECTIVELY

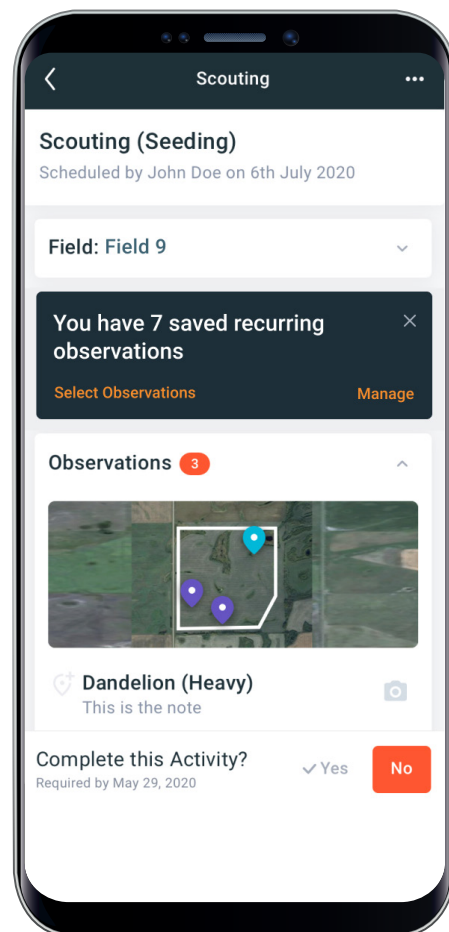

Connect your whole team with custom permission settings and alerts.

- Collaborate in-app with your operators, scouts, agronomist and managers
- Access accurate information to support key decisions throughout the season

## CALL THE SHOTS

When your farm records are up-to-date and accessible from any device, management decisions are simplified.

- Generate reports on seeded acres, application type, products and acres applied
- Efficiently record movement of inventory across your farm

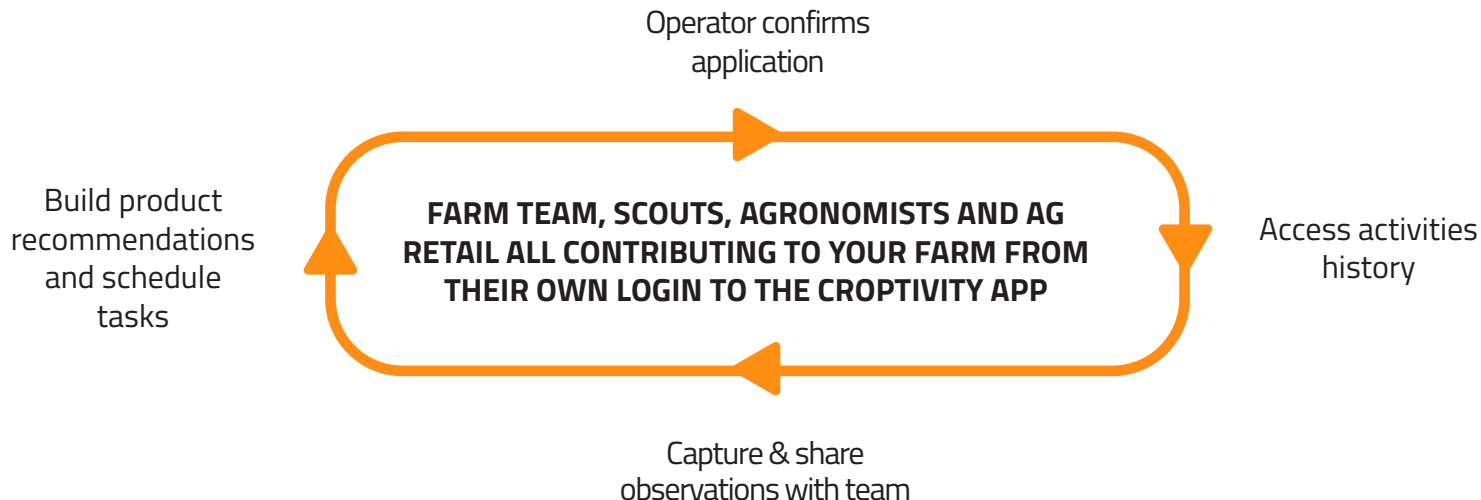

# MANAGE YOUR TEAM, TASKS AND INVENTORY. AUTO-CAPTURE RECORDS WHILE IN THE FIELD.

## COLLABORATE

Add trusted partners (like your independent agronomist) to manage and execute tasks.

- Improved communication to resolve crop issues faster and with more accuracy
- Receive timely results through workflow automation tools
- Scout more efficiently by utilizing captured observations
- Share traceability reporting with key partners

## HOW CROPTIVITY WORKS

FARM MANAGEMENT • PRECISION AGRONOMY • CROP MARKETING

**Let's get to work. Together.**
