

Connected Worker

Take farm safety into your own hands with TELUS Connected Worker solutions.

TELUS Connected Worker offers a suite of monitoring solutions for you, your team and your family. Whether you're working alone in the field, checking on livestock, reporting on bins or handling dangerous materials, get peace of mind that help will be there.

Fall detection

Get fall detection through an innovative wearable device that reaches your team, family and emergency services. Real-time location awareness makes it easier and faster to respond to emergent incidents no matter where you are.

Real-time monitoring

Connected Worker is backed by a 24/7 monitoring service that will be there for you. Your wearable device is equipped with two-way communication to ensure you get the help you need.

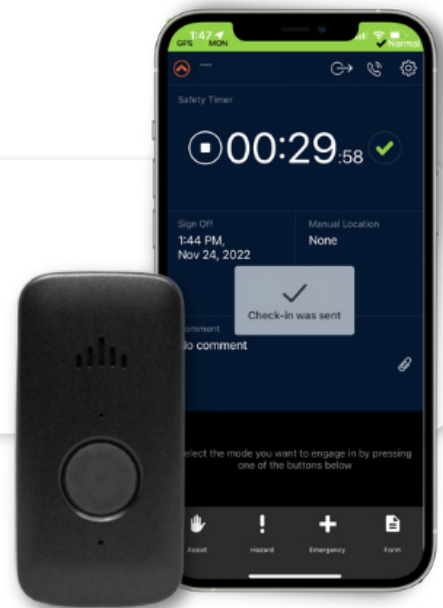

Customized protocols

Control your emergency escalation and customize them to your needs. Include notifications to your team and family, as well as emergency services, in the event of an incident.

The Connected Worker advantage

- ✓ Fall detection
- ✓ Access emergency services
- ✓ Works outside of cellular service
- ✓ Dispatch help for SOS alerts
- ✓ Two-way communication 24/7 real-time monitoring

Let's get to work. Together.

Devices to keep your farm workers safe

SOS Wearable

Smartphone apps

Satellite devices

Connected Worker goes wherever you go

Climbing/checking
grain bins

Checking livestock

Late night field work

Lone worker situations
(fixing fences, etc.)

Don't just take our word for it

“ Our operation is not overly huge - 95 per cent of the time, we know where everyone is and what they're doing. But if a person was to be by themselves, or if I wasn't around, it gives me a sense of security. It's all about safety.”

- Tyson Ormann, mixed grain and cattle operation near Foremost, AB.
