

Farm At Hand

Farm Management

Manage your farm like a pro

A collaborative, whole-farm management solution that allows you to organize tasks, allocate resources and record activities on your farm more efficiently. Make critical, on-the-go business decisions by extracting insights from your digital farm information.

Track your farm information

- Keep tabs on your farm information as you add and complete activities throughout the season.
- Easily manage your storage, equipment and maintenance all from one place.

Put your farm information to work

- Plan your crop year in advance and manage your crop production and field-profits wherever you are.
- Know your sales position on-the-go, allowing you to make more confident decisions for your farm.

Spend your time where it is most valuable

- Invite your farm team and advisors to collaborate on your records.
- Keep everyone up-to-date with the information they need to help your farm be more profitable and efficient.

Product highlights

- ✓ Field management
- ✓ Crop Planning
- ✓ Cost & revenue tracking
- ✓ Sales management

Track

Track everything that's happening on your farm in one place.

Plan

Plan your crop year from overall crop mix to field-specific blends.

Connect

Connect to your team, trusted advisors and on-farm technologies to get the most out of your farm information.

Five key advantages of digitizing your farm records:

Improve collaboration between your farm team

Improved access to information no matter where you are

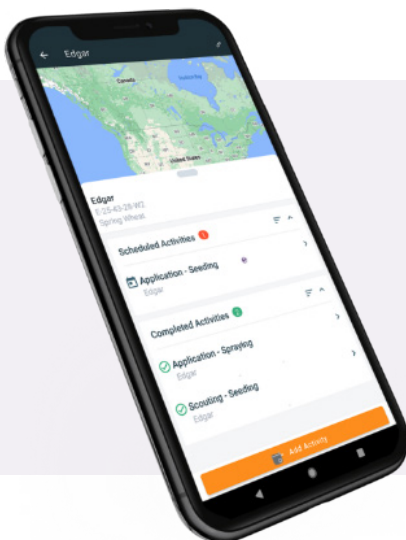

Provide timely decisions on-the-go

Save hours in administration time with easier record-keeping

Have an accurate, up-to-date picture of your farm
